

January 19, 2022

PUBLIC LECTURE SERIES

Montana Tech's Public Lecture Series will host Amy Sacry with Geum Environmental Consulting on **January 19, 2022** at 4:00 pm. Her presentation is titled, "Upper Clark Fork River Floodplain Ecology and Response to Restoration & Remediation." The ZOOM only presentation can be accessed [here](#).

NUCOR WEEK AT MONTANA TECH

Career Services and Nucor Steel are teaming up! Nucor Steel is the first Platinum Level Member of the Montana Tech Career Services Employer Partnership program, and as part of this partnership, we will feature NUCOR WEEK on the Montana Tech campus from January 24 through 28! There are multiple events planned for Montana Tech students including:

Tuesday, January 25

Nucor Steel Resume Workshop | 9:00 am – 11:00 am | SUB, Copper Lounge

Wednesday, January 26

Nucor Steel All Day Meet & Greet and Recruiting Event | 10:00 am – 4:00 pm | SUB, Copper Lounge

Thursday, January 27

On-Campus Interviews with Nucor Steel | 8:00 am – 4:00 pm | URC 109

Friday, January 28

On-Campus Interviews with Nucor Steel | 8:00 am – 12:00 pm | URC 109

Throughout the week, the Nucor Steel team members will also be doing classroom presentations and meeting with various clubs on campus to talk with students about career and internship opportunities with NUCOR Steel.

2022 BUREAU CALENDARS ARE HERE

If you haven't picked up your calendar yet, the Montana Bureau of Mines and Geology 2022 calendars are still available for distribution from the MBMG Publications Office in the NRB. Each campus employee can pick up a complimentary calendar; we ask that you sign for it so we can keep track of distribution. If a department or other group wants to have one person collect for everyone, just bring a list of names to be checked off. Additional copies can be purchased for \$5.00 each. This year's theme is Dinosaurs of Montana, written by guest author Jack Horner.

CAREER OUTCOMES

The career outcomes information is posted online for Summer and Fall 2020 [here](#). Typically a hard-copy executive summary would be sent to campus. If you would like a PDF overview or specific information for your department, please contact Sarah Raymond, sraymond@mtech.edu for more information.

Beginning with the May 2021 class, career outcomes information will be collected in each graduates DR 2.0 account. 12Twenty is the platform and has a long history of collecting career outcomes of college students. The exciting possibility is that *finally* the career management system and outcomes reports are available for students in one place.

Students can report their post-graduation plans [here](#). If you are aware of any of your students plans from last semester or next, please email Sarah, sraymond@mtech.edu.

OUT FOR BLOOD

Montana Tech vs. Carroll Blood Drive on **February 2, 2022** from 10:00 am to 3:30 pm in the Dance Studio in the HPER. The winner will be determined by units of blood and announced at the Tech/Carroll Basketball game on February 10. Please make your appointment by using the Red Cross Blood Donor App, going to www.redcrossblood.org or calling 1-800-733-2767 (sponsor code: athletics). Each person who donates will receive a \$10 Amazon gift card.

SPRING CAREER FAIR COMING UP

The Spring 2022 Career Fair will take place on **Wednesday, February 8, 2022**, from 8:00 am – 2:30 pm in the HPER. The career fair will include virtual speed information sessions on the evening before the fair and 2nd Day Interviews the day after. The virtual speed sessions, in Career Fair +, will be on **Tuesday, February 7**, from 5:00 pm-8:00 pm (more scheduling details to follow after finalization). Since the sessions are virtual, students will not be required to return to campus in the evening to participate. This decision was based on student feedback from the last academic year. Employers who participate in the career fair on Tuesday can also do 2nd Day Interviews on Wednesday, February 9 (location TBD). Registration is open for the Spring 2022 Career Fair. Please encourage students to register in DR2.0 and access Career Fair + to help them formulate a plan and navigate the fair!

CENTER FOR ACADEMIC INNOVATION

The Center for Academic Innovation has several interesting professional development opportunities for faculty this semester.

- Wooclap: **January 18** | 10:00 am | [Register here](#)
- Panopto (faculty training session) **January 19** | 2:00 pm | ZOOM
- EDUCAUSE Learning Lab - Designing Hybrid-Flexible (HyFlex) Courses to Support Learning Environments: **February 17** | [Register here](#) (\$299 for members)
- Quality Matters PD – We have approval to use CARES funds for some of this. Please use the [Quality Matters Training Request form](#) to request training. You can explore the available sessions by navigating to MyQM and logging in with Tech credentials. On the left side of the screen, select Workshop Register > QM Training. (If you haven't logged in before, please click on "No, I am new here" and follow prompts from there). The following sessions are of particular interest:
 - Designing Your Blended Course
 - Designing Your Online Course
 - Improving Your Online Course
 - Applying the QM rubric –
 - Peer Reviewer (for those interested in helping with internal reviews CAI and/or CARES will cover the cost)
- LinkedIn Learning has all kinds of on-demand webinars. This week's CAI focus topic is Learner Engagement:
 - [Gamification of Learning](#)
 - [Creating Inclusive Learning Experiences](#)
- Texas A&M University is offering a self-paced online course this month called "Introduction to Game-Based Learning," for anyone interested in learning more about game-based learning. You can get more information on [Instructure](#). (No prior experience required; a certificate and full PD/CEU can be earned.) Introduction to Game-Based Learning is a 4-week self-paced introduction to game-based learning and is specifically designed for educators. Participants learn about the benefits of game-based learning and develop strategies to incorporate game-based learning in their classrooms and curriculum. Fee is \$150.
