#### **CLIFTONSTRENGTHS TRAINING**

The LEAD team is continuing to create opportunities to build leadership potential at Montana Tech. Our goal is to elevate a culture of leadership and role modeling. Consider taking the CliftonStrengths assessment and join an information session in May. Whether you're looking to improve yourself or a leader who wants to empower your people to perform better, your efforts start with CliftonStrengths (Gallup, 2020). Contact Sarah Raymond, [sraymond@mttech.edu](mailto:sraymond@mttech.edu), for an assessment code and details about the group session in May!

#### **GRADUATE SEMINAR**

You are invited to a graduate seminar presentation by Ethan Coppage, M.S. Geosciences-Geology, on **May 2, 2022 at 1:00 pm** in MG 201. The title of his presentation is "Geology and Geochronology of the East Dome Complex within the Hog Heaven Volcanic Field." The presentation is also available via zoom (meeting ID: 793 7605 7303, passcode: M8u9CB).

#### **HERMAN THE THERAPY DOG**

Come pet your finals week stress away with Herman the Therapy Dog on **May 3, 2022 at 1:00 p.m.** in the Special Collections room of the library. Herman is a Leonberger with deep soft fur and a loving smile. Weighing in at 125lbs, he is a true gentle giant. When not visiting students during finals, he's usually found wagging his way through nursing homes and hospitals in Missoula bringing smiles to nurses and patients. Here is your chance to get a little doggy sunshine to brighten your exams.

#### **LESAR FAMILY NURSING SIMULATION CENTER OPENING CELEBRATION**

Join us on **May 6, 2022 at 1:00 p.m.** in the Copper Lounge to celebrate the opening of the Lesar Family Nursing Simulation Center. Enjoy refreshments and a brief presentation, followed by the ribbon-cutting. An open house with tours and demonstrations will follow the

ribbon-cutting from 2:00 p.m. to 4:00 p.m. in the Lesar Family Nursing Simulation Center located in the S&E Building.

### **CLEAN UP BLACKTAIL STREAM (CUBS) EVENT**

The Clark Fork Watershed Education Program (CFWEP) has been awarded \$6,000 from the Superfund Advisory and Redevelopment Trust Authority (SARTA) for their annual Clean Up Blacktail Stream (CUBS) event, which will take place **May 9-13**. The purpose of CUBS day is to invite the next generation of stewards to engage with our watershed, empowering them to 'do something' about the problems within our community while learning about the historic issues and the present challenges. Lou Parrett, a Whittier School teacher, was the first to imagine CUBS day, inviting his students to walk to the creek and participate in cleaning up in the weeks following Earth Day starting in 1978. Lou passed the torch to CFWEP and although CFWEP engages many more students and schools to clean up both Silver Bow Creek and Blacktail Creek, the name 'CUBS' remains the heart of this program. The SARTA award has enabled CFWEP to further expand from CUBS day into Earth Month. The Earth Month activities include several clean-up events and additional opportunities for learning about our local landscape including native plant gardening days, songbird banding, and community stormwater awareness and art projects. CFWEP envisions that this event becomes as much of a staple for the Butte community as the Folk Festival. CFWEP aspires that people attend the Earth Month events knowing they are making a lasting impact and difference in our community.

### **DRESS-AN-OREDIGGER**

Career Services is putting on a Dress-an-Oredigger professional clothing drive **until May 12**. Career Services is accepting donations of gently used professional clothing including: suit coats (men and women), dress pants (men and women), dresses, skirts, shoes (men and women), ties, and button-up shirt & blouses (men and women). Please drop items off at the Career Services office, University Relations Center (URC) 109.

### **SOFTWARE REQUESTS**

Are you are teaching a class in Fall 2022 and using a campus classroom or computer lab on the North Campus or Highlands College? If so, and you need any software besides Microsoft Office, Adobe Reader, Firefox, Chrome, and VLC media player, please submit a TECH SUPPORT ticket

(<https://mtech.teamdynamix.com/TDClient/1921/Portal/Requests/ServiceDet?ID=36966>)

**BEFORE May 11** to request your software. Computers are reimaged each summer, therefore just because the software was previously installed does not mean it will be there in the Fall – **UNLESS** you request it. If your request is not submitted **BEFORE May 11**, your software may not be installed when the semester begins.

Why do I need to have my request in so early?

- The amount and type of software required may not run on the computer that is currently installed in the lab/classroom you are scheduled to use. If the lab/classroom you are intending to use does not have the specifications required, other arrangements need to be made.
- Podium computers in classrooms and computers in computer labs are re-imaged (re-built) every summer. This takes time and coordination. Not getting your software request in on time impacts our schedule significantly.

- Submitting a late software request may require computer support to put in overtime. This is not only expensive, but also does not guarantee that your software will be installed when you need it to be.

### HIGHLANDS COLLEGE GOLF SCRAMBLE

You are invited to attend the Highlands College inaugural golf scramble to benefit Trades & Technology. The tourney will be held on June 3, 2022. Registration is at 9:00 am with a 10:00 am tee-off at Highlands View Golf Course. Entry fees are \$140 for a 4-person team and \$35 for individual golfers which includes a goodie bag, two drink tickets, and lunch. Register online [here](#)
