2023 MBMG CALENDARS

The Bureau's 2023 calendars are available for distribution from the Bureau Publication Office in the NRB. Each campus employee can pick up a complimentary calendar; we ask that you sign for it so we can keep track of distribution. If a department or other group wants to have one person collect for everyone, bring a list of names to be checked off. Additional copies can be purchased for \$5.00 each.

TURNITIN

Montana Tech subscribes to Turnitin, text-matching identification software that can help instructors detect the presence of plagiarism in student papers. This powerful tool also simplifies remote assignment submission and has built-in electronic grading functions that significantly speed up the marking process. The next Turnitin training session is scheduled for **Thursday, January 12** from 12:00 until 1:30 in Engineering Hall room 106. Please consider attending this session if you have never used Turnitin, want to know more about Turnitin's grading functions, or would like a Turnitin refresher.

SPEECH AND DEBATE LOOKING FOR JUDGES

Judges are needed for the 2023 Richest Hill on Earth Speech and Debate Meet held at Butte High School on **Friday, January 13 and Saturday, January 14**. Sign up here.

MONTANA RECOVERY RESOURCES SYMPOSIUM

Please consider attending (in person in Helena or virtually) the Montana Recovery Resources Symposium on **Wednesday, January 25, 2023** from 8:30 am to 5:00 pm. This is an opportunity to network, build relationships, and learn about available resources to support disaster recovery efforts. Join Montana state emergency management experts, state higher education representatives, federal disaster recovery staff, local community representatives, and philanthropic organizations for an opportunity to network and learn about the following:

- What does a holistic approach to long term recovery look like following a disaster event?
- What resources are available to assist with recovery efforts and where are the recovery gaps?

The Montana Recovery Resource Symposium will discuss resources and programs that can be utilized to assist in disaster recovery efforts, while also identifying resource gaps.

Please register here.

ADVANCING TECH FORUM

Mark your calendars for the first Advancing Montana Tech Forum of 2023. The forum will be held on **February 8, 2023** at 3:00 pm in the Lance Leadership Hall in the Student Success Center.
