- Advancing Montana Tech Forum
- DayOne
- Admissions Team is Looking for Team Members
- ACE Tutoring - Fall 2022 Hours
- Center for Academic Innovation Update

ADVANCING MONTANA TECH FORUM

The academic year's first Advancing Montana Tech Forum will be held on **Thursday, September 8, 2022** at 3:00 pm in the Library Auditorium. A reception will take place immediately following in the Student Success Center.

DAYONE

Montana Technological University's 6th annual giving event, DayOne, will take place this **Thursday, September 8th and Friday, September 9th**. DayOne is a two-day online giving event to raise funds for our students, departments, programs, and initiatives at Montana Tech. The event 2022 kicks off at 6:00 am MST on Thursday and runs through 11:59 pm MST on the 9th. This year there are more than \$200,000 in matching funds up for grabs. Find out more about DayOne 2022, and to sign up to be a DayOne Ambassador visit <https://dayone.mtech.edu>.

ADMISSIONS TEAM IS LOOKING FOR GREAT TEAM MEMBERS

Do you know someone looking for work here in Butte? The Montana Tech Office of Admissions is looking to add two dynamic and energetic admissions representatives (admissions counselors) to our team. These are full-time classified positions with full university system benefits and awesome teammates. Must like working with people and be

able/willing to travel around Montana and the northwest for approximately two months in the fall, and potentially some spring travel too. Help us build our next great class of Orediggers! Find the full job description and requirements [HERE](#).

ACE TUTORING - FALL 2022 HOURS

The Academic Center for Excellence (ACE) is open for tutoring! The drop-in tutoring schedule for North Campus can be found [HERE](#). If a student is looking for a private appointment, please encourage them to email ace@mtech.edu or fill out the private appointment request form [HERE](#).

CENTER FOR ACADEMIC INNOVATION UPDATE

Welcome back from the Center for Academic Innovation! We are excited to see all of you, new and old!

We are pleased to announce that we have begun scheduling regular professional development sessions for anyone who would like to take advantage of them. Topics for September include Basic Panopto use, Moodle (Creating content and using the gradebook), Proctorio, engaging students (Wooclap and discussions), and best practices in course alignment. Although registration is not necessary, it is helpful for the facilitators to know who will attend. You can register using the Registration for CAI Training form. Please use the CAI calendar to see dates, locations, and brief descriptions of training sessions. (These will change monthly, so please check back.)

In addition, we are getting ready to launch our Innovation Committee. If you are faculty, staff, or know of a student who would like to be a part of a professional discussion group whose purpose is to help the Tech community bring innovative teaching and learning to Tech, please contact Kat McCormick at kmccormick@mtech.edu. We are excited to foster true innovation by providing a hub for cross-institutional communication and collaboration. This is not intended to create more responsibility or work, rather it is to be a pathway to additional support and connection across campus. I truly hope you will consider being a part of this exciting group!

One other heads up – to control costs with our video streaming and storage, we ask those who use Zoom or Teams to stream your courses to try the Panopto tool we introduced last year. This is a very user-friendly lecture capture tool designed to be as effective as possible. Among other features, it allows automatic captioning, searchable video, and direct placement into your Moodle course. In addition, there is not size limit on the cloud storage, so in about a month we will be changing the settings so that all Panopto recordings done in Zoom or Teams will automatically save in your online Panopto account, from which you can edit, post, share, or delete the file at your convenience.

We offer face-to-face basic training in this tool on September 6th and 27th (*register here*), or you can request a one-on-one session at your convenience. A recorded on-demand version will be available soon as well.

UPCOMING EVENTS

- 9/8 Advancing Montana Tech Forum | 3:00 pm | Library Auditorium
