DIGGER INTEGRITY DAY

The Writing Program will host Digger Integrity Day on **Wednesday, October 18**, from 11:00 until 3:00 in SUB 212AB. This campus education and engagement event will coincide with the International Day of Action for Academic Integrity 2023. This year's Digger Integrity Day will feature an escape room from which students will try to escape with their integrity. Writing Program faculty and staff will be present to facilitate the activity.

RESTORATION SEMINAR

This week's restoration seminar will feature Montana Tech ecological restoration graduate

student Dan Kelly on his research covering the ongoing restoration on Mount Haggin, previous work on the site, and his exploration of tuning restoration techniques for the project's long-term success. Mount Haggin is a unique part of the superfund complex. The seminar will be on **Wednesday, October 18**, at 4:00 p.m. in CBB 102 or via [Zoom](#) (passcode: Seminar).

MOBILE MAMMOGRAPHY COACH ON CAMPUS

In observance of Breast Cancer Awareness Month, the Montana Tech Foundation is partnering with St. James Intermountain Healthcare to host the new Mobile Mammography Coach on campus on **Friday, October 20**, from 9:40 am to 3:40 p.m. The mobile coach will be parked at the Frank and Ann Gilmore University Relations Center, and the Butte-Silver Bow Health Department will be on hand to assist patients. You can schedule your screening mammogram ahead by calling 406-723-2950, ext. 1. Walk-ins are also welcome. All participants should bring their insurance card and driver's license. Participants will receive a gift bag and Montana Tech volleyball game tickets. For more information, please email Shannon Panisko at spanisko@mtech.edu.

SAP NEXT-GEN LAB GRAND OPENING

Please join us on **Friday, October 20** at 3:00 pm in Engineering Hall 102 for the grand opening of the [SAP Next-Gen Lab](#). Montana Tech will have the distinction of having one of only 13 Next-Gen Labs in the nation. The event starts with brief opening remarks, including comments from Tom Wilder, Executive Director of the SAP University Competency Center at California State University. Students will provide demonstrations in the lab, and a reception will follow at 4:00 p.m. in the Copper Lounge. SAP leads the world in enterprise resource planning systems, serving over 300,000 organizations in 190 countries. 87% of the Forbes Global 2000 companies use SAP, and 75% of the world's transaction revenue touches an SAP system. Montana Tech is the only university in the state officially designated an SAP University Alliance. Our business students use analytical applications, including MS Excel, Power BI, Tableau, SAP Analytics Cloud, Orange, and Minitab, equipping them with valuable skills for the digital age. In a hands-on, experiential learning environment, our students collaboratively analyze complex data sets, gaining skills to tackle business challenges, make data-driven recommendations, and drive informed decision-making.

HARVEST HURRAH

Please join us for a Harvest Hurrah on **Wednesday, October 25**, in the Copper Lounge from 3:30 p.m. to 5:00 p.m. It's been a phenomenal start to the academic year. Let's celebrate all things good at Montana Tech. Join ASMT, Faculty Senate, and Staff Senate for a fun afternoon to celebrate Faculty P&T, Student Prospectors, new faculty and staff, and our campus community.

CAMPUS STORE COSTUME CONTEST

Join us for the Campus Store Costume Contest on **Thursday, October 31** from 10:00 am to 3:00 pm. Prizes for the best costume (student), best costume (faculty/staff), and best group costume. Enjoy treats and a photo booth.

UPCOMING CAREER OPPORTUNITY EVENTS

Recommended Majors: Geological Engineering, Metallurgical & Materials Engineering, Metallurgical / Mineral Processing, Mining Engineering

SECURITY

Multifactor Authentication

Make it harder for cybercriminals to compromise your accounts by enabling multifactor authentication (MFA). SecureOurWorld like a pro! Multifactor authentication adds an extra layer of protection to your accounts, making it harder for hackers to get in. Stay one step ahead and lock them out.

Where should you use MFA?

1. On accounts with your financial info like banks and online stores
2. On accounts with personal info, like social media and healthcare apps
3. On accounts with info you use for work

TLDR: Use MFA everywhere

Passwords are the frontline gatekeepers of your online kingdom! But why settle for one line of defense when you can have two? Multifactor authentication doubles the security, making your accounts much more fortified. Keep the baddies at bay!

There's no one like you in the whole world... except the cybercriminal with your password.
Don't get hacked. Use multifactor authentication!

#CybersecurityAwarenessMonth #SecureOurWorld #MFA

IT HELP

Need help? Please try our knowledgebase at <https://kb.mtech.edu>. Remember to sign in to the system before utilizing the search feature (next to the Sign In button). This will allow your search to find documents and services that are applicable to you! If you can't find what you are looking for, please submit a service ticket or call 406-496-4244.
