(1:00-3:00 pm, MUS 211)

2/15:

Weights (12:00 pm, HPER)
Staff Senate Lunch & Learn (11:30 am, SUB 212)

2/19: President's Day Holiday

ENVIRONMENTAL ENGINEERING GRADUATE SEMINAR

You are invited to the Environmental Engineering Graduate Seminar presented by Dr. Aryama Raychaudhuri, Environmental Engineering, about Part II “Bioelectricity generation using wastewater in acidogenic chamber-microbial fuel cell using ceramic membrane.” The presentation will take place on **Tuesday, February 6** in S&E 113 at 12:30 pm.

NAVIGATE TRAINING: 20TH DAY GRADE COMMUNICATION

Learn how to use Navigate360 to identify and communicate with your students who have 20th day grades. Rather than using a paper procedure, advisors can view their students’ midterm grades on Navigate. It’s as simple as clicking a link that will be sent via email. Advisors can then reach out to their advisees directly through the platform.

Three meeting options will be provided on **Wednesday, February 7:**

North Campus: 9:00 am, Main Hall 205

South Campus: 12:00 pm, Highlands College Room 111

[Zoom](#): 3:00 pm (will be recorded)

RESEARCH AND GRAD SCHOOL OPEN HOUSE

Please join the Research Office and Grad School for an open house to welcome new employees and learn what services are available to students, faculty, and staff. The open house will take place on **Wednesday, February 14** from 1:00 pm to 3:00 pm in the Museum Building Room 211. Treats will be provided along with prizes.

STAFF SENATE LUNCH AND LEARN

You are invited to the Staff Senate Lunch and Learn on **Thursday, February 15** at 11:30 am in the SUB 212 Highlands/Big Butte Room to learn about Deer Oaks Employee Assistance Program. Please RSVP to the calendar invitation or send an email to staffsenate@mtech.edu to reserve your spot. Sodexo will be providing a free meal voucher for those whom attend the event.

ONLINE RETURN TO LEARN EVENT

Montana State University's Graduate School is hosting an online Return to Learn event on **Wednesday, March 6** from 12:00 p.m. to 1:30 p.m. The goal is to let all MUS system employees know their benefits (tuition coverage, dependent coverage, and more). Register [here](#).

USING MORE THAN ONE METHOD OF AUTHENTICATION

On the subject of Multi-Factor Authentication, we want to encourage everyone

to utilize more than one method of verification on their account as to avoid any issues later down the road. This will ensure that you are able to login and manage your Account/Password even in the event that an existing registration method is not registered correctly or is not available. To review our article outlining proper instructions on how to do this, simply navigate to either of the following links:

For adding/removing or updating registrations: <https://mtech.teamdynamix.com/TDCClient/1921/Portal/KB/ArticleDet?ID=152660#Add/Remove%20or%20Update%20MFA%20Methods>

For brand new registrations: <https://mtech.teamdynamix.com/TDCClient/1921/Portal/KB/ArticleDet?ID=152660#MFA%20No%20Registration>

DO YOU NEED AUTOMATIC DOORS UNLOCKED?

Do you have an event or a class coming up, and will need the automatic doors to your building unlocked outside of their regularly scheduled times? Do you have a researcher who needs after-hours access to a certain building? Do you need your building to lock down earlier than usual for a week? The DiggerCard Center is here to help! Simply email mhaldane@mtech.edu with all the pertinent details, and Mike can make the necessary adjustments for you! Questions? Concerns? Email Mike Haldane in the DiggerCard Center and he will happily assist you!

DRIVER SAFETY FOR CAMPUSES

You are invited to attend a free two-hour Driver Safety Course full of information on driving a large vehicle with occupants or gear for the university system. The course is designed to educate drivers on operating a wide variety of vehicles for MUS campuses. It expands coverage of defensive driving tips applicable to all motor vehicles while retaining information about the special techniques needed to safely drive the full-size sport utility vehicles and small buses still used by campuses. It also explains Board of Regents' driving policies and the stricter policies set by some campuses. Finally, it teaches what a driver should do if they are involved in a crash while driving on MUS business. Register [here](#).

CAMPUS STORE FOOD SELECTIONS

The Campus Store now carries an assortment of sandwiches and local baked goods. Stop by when you need a treat!
